 - Which factor(s) allowed for the creation or expansion of these services? (Check all that apply)
 - Increased funding
 - Expanded income eligibility

Section E –

CSBG Expenditures by Service Category

Section E should account for all CSBG and **CSBG ARRA** dollars **EXPENDED** by eligible entities in FY 2010.

- This could include CSBG dollars carried over from FY 2009 and any CSBG discretionary funds spent during your State's CSBG reporting period.
- **CSBG ARRA** funds should be listed in its separate column, **NOT** combined with regular CSBG

Section E –

CSBG Expenditures by Service Category

Ensure that agencies are reporting all CSBG & **CSBG ARRA** expenditures by the CSBG Service Categories:

- Employment
- Education
- Emergency Services
- Income Management
- Housing
- Nutrition
- Linkages
- Self Sufficiency
- Health
- Other

Section E – CSBG Expenditures by Service Category

- Decide how to classify each project/program.
- Determine its **primary purpose**, and then assign it to whichever of the nine categories it most closely matches.
- If it truly does not fit into any one of the defined categories, put it in “Other” and attach a description of the program.

Section E –

CSBG Expenditures by Demographic Category

- Youth and Senior programs are those primarily for these specific groups.
- Ensure that your agencies report on the total amount of CSBG & CSBG ARRA funds spent on Youth Programs, defined as those that serve individuals aged 12 - 18.
- Ensure that your agencies report on the total amount of CSBG & CSBG ARRA funds spent on Senior Programs, defined as those that serve individuals ages 55 and up.

Section E – CSBG Expenditures

Example:

*An agency carried over **\$2,000** of FY 2009 CSBG funds. Along with FY 2010 CSBG funds of **\$15,000** and **\$5,000** of FY 2010 discretionary funds, these funds are expended for an after school program for youth. These FY 2009 and FY 2010 expenditures would be reported as:*

- \$22,000 Education (service category)
- \$22,000 Youth (demographic category)

Section E – Program Expenditures

- Direct program costs for CSBG reporting include expenditures on some activities with administrative qualities including:
 - Salaries and benefits of program staff and managers
 - Equipment
 - Training
 - Conferences
 - Travel
 - Contracts
 - As long as those expenses relate specifically to a particular program or activity, not to the general administration of the organization.

Section E – Admin. Expenditures

- As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or purpose.
- **Examples:**
 - Strategic direction
 - Board development
 - Executive Director Functions
 - Accounting
 - Budgeting
 - Personnel
 - Procurement
 - Legal services

IM 37, Definitions of CSBG Direct Program Costs and Administrative Costs

Section E – Admin. Expenditures

- Ensure that your agencies report the amount of CSBG & CSBG ARRA funds spent on Administrative Purposes (see IM 37).
- Performance Measure: Ensure that the total amount of sub-grantee CSBG administrative funds expended each year remains below 20%.
 - <http://www.hhs.gov/recovery/reports/plans/communityservicesblockgrant.pdf>

Section E – Admin. Expenditures

- Linkages are usually where administrative expenditures are reported, as well as:
 - CSBG referrals
 - Grants to support participation in planning/coordinating services from low-income groups
 - Funding for statewide forums, conferences, and coalitions

Section F –

Non-CSBG Resources

- Ensure that agencies report on their TOTAL agency budget, for all Federal, State, local, and private funds available during the reporting period.
- The report will capture the allocated amounts, and not expended amounts. This was voted on by the ISTF and was a new change starting in FY 2007.
- If an agency has a three-year grant they should only report on the amount projected to be spent in one year.
- Public agencies should report on everything under their CAA ‘umbrella’.

Section F – Non-CSBG Resources

- If certain funding sources significantly increase or decrease, or if you lose funding for a program or gain new funding, include this in a memo to the State.
 - This is especially important when an agency receives very few sources of Federal funds.
- If an agency does not receive any State, local, or private funds, verify this in a memo to the State.

Section F – Subsection I

Federal Resources

- Item 2: Ensure that an agency reports on the amount of FY 2010 CSBG & CSBG ARRA funds allocated. (This will most likely be different from the total amount of CSBG funds expended during the reporting period.)
 - This includes any FY 2010 discretionary dollars
- Item 3k Other HHS Resources and Item 3.z Other Federal Resources: If any items are listed under other, ensure that there are no acronyms listed and when possible please include the CFDA #.

Section F – Subsection I Changes

Federal Resources

- In FY 2009:
 - REMOVED Community Food and Nutrition Program
 - ADDED to Item 3.p Housing Programs (HUD)

 - These are funds allocated by your State legislation. NOT funds allocated to your State by the Federal government.

Section F – Subsection II

State Resources

- When reporting State funds please ensure that your agencies combine your grants to fit into the appropriate subcategories.
 - For example, if your agency has four State funded energy grants please combine all four grants and report them under E. State Energy Programs.
- If you cannot find an appropriate subcategory then please list the full name of the funding source under O. Other State Sources.
